Why choose us?

At Cambridge & Counties Bank we know that investment opportunities don't always fit with a long term committed loan structure. A short term solution can allow you to secure a property before using your expertise to enhance its value. Our experienced front line and manual underwriting teams have a wide knowledge of the sector so they understand the potential that refurbished properties can offer. In addition we have the added benefit of being able to approve a long term committed loan alongside the refurbishment should you wish to retain the property following its completion.
